EDUCATION

Nong Lam University — *Ho Chi Minh City, Vietnam* 2025 – 2029 (expected)
Second-year student, Information Technology

PROJECTS

Kilu Home — *Veterinary Clinic Management System* Jul 2026 – Sep 2026
Personal project · Sole developer

- Designed and shipped a three-application platform — a Next.js 14 public booking site, a React 18 + Vite clinic console, and a Node.js/Express API — roughly 14,800 lines written and operated solo.
- Modeled a 13-table SQLite schema (WAL mode, 22 indexes) and exposed it through a REST API with JWT sessions, per-IP and per-email rate limiting, Zod validation, CSRF checks, and admin-only access to customer PII.
- Built a provider-agnostic AI copilot (Gemini 2.0 Flash / GPT-4o-mini) with a 16-tool function-calling loop, image and PDF input, and a preview-confirm gate on every write action.
- Deployed the API as a Windows Service behind Tailscale Funnel, with automated daily backups, health checks and file-based logs supporting a clinic that runs 24/7.

EXPERIENCE

Store Staff — *GS25* Oct 2025 – Jun 2026
Ho Chi Minh City, Vietnam

- Worked across cashier, stock and customer service duties in a busy convenience store.
- Received and arranged stock, checked inventory levels and expiry dates, handled cash and card payments, and completed shift handovers.

TECHNICAL SKILLS

Programming	TypeScript, JavaScript (Node.js), SQL, HTML/CSS
Frontend	React 18, Next.js 14 (App Router), Vite, TailwindCSS, Radix UI, TanStack Query, React Hook Form, Zod, Recharts
Backend	Express 4, REST API design, SQLite (better-sqlite3), PostgreSQL, JWT (jose), Multer, Nodemailer
AI	LLM function calling, tool and prompt design, Gemini and OpenAI APIs, multimodal input (image, PDF, CSV)
Operations	Windows Service (NSSM), Tailscale Funnel, Vercel, rate limiting, CSRF, XSS mitigation, automated backups, Git

ACTIVITIES & INTERESTS

- Sports and arts.
